

Metrosideros "Firecracker PBR"

Magnificent foliage shrub to small tree with amazing red new growth turning to bright yellow and green variegation as it ages.

Metrosideros "Firecracker PBR" is an ideal seaside shrub. It's hardy and adaptable with a height up to 3 metres, ideal as a specimen plant, hedge or screening plant for landscaping or tubs. Can grow in full sun, part shade and is wind and salt tolerant. Keep moist until established, responds well to mulching and fertiliser in spring.
