The ChemCert Accreditation AQFIII course provides you with:

- National Accreditation for 5 years
- Safe storage requirements for pesticides, fuels and other dangerous goods.
- How to determine weather conditions suitable for spraying, including Delta T, stability and thermal drift.
- How to efficiently, effectively and safely use pesticides.
- Easy and practical calibration techniques for efficient chemical use.
- Knowledge to limit spray drift including innovations in application and nozzle selection criteria.
- How to manage chemical residues, WHP's, ESI's and MRL's.
- How to meet Freshcare and Woolworth's QA requirements.
- WHS, APVMA, EPA and legislation updates.
- Record keeping requirements, including manifests and spray records.
- Easy to use risk assessments and hazard control forms.
- Self - audit & compliance checklists for use back at work.

- ✓ AHCCHM303 Prepare and Apply Chemicals
- ✓ AHCCHM304 Transport and Store Chemicals

Meet Your Trainer: Ian Johnson

A highly skilled trainers who has been delivering courses for numerous years. He has helped over 3,000 industry personnel achieve ChemCert accreditation. Ian is qualified to assess Agsafe and ChemCert chemical handling as well as WHS risk management courses throughout the Sydney Basin, NSW and Southern QLD.

All students participating in Nationally Recognised Training in Australia must have a Unique Student Identifier (USI) number. Students who don't provide their USI to ChemCert Training Group will not receive a qualification or statement of attainment until they provide one.

Please head to www.usi.gov.au to create your USI, and make sure you provide it to ChemCert Training Group using the enrolment form on the day of the course.

To confirm your place either book online at www.ngina.com.au or complete this form and send to E. info@ngina.com.au, F. 02 9679 1655, T. 02 9679 1472 or PO Box 345 Kenthurst NSW 2156.
